

# Al-Gel (70% alcohol)

## HAND SANITARY Al-Gel

- Kills 99.9% of all bacteria
- Fast drying, no sticky hands
- Convenient use, no water required to clean dirt or chemical residues

### How to use Teepol Al-Gel

Apply 1 "pump" of the product to the palm of your hand. Rub hands together for around 30 seconds, ensuring all surfaces (particularly between the fingers and down the wrists) until they are dry. If your hands are visibly dirty, we recommend you wash with soap and water then use Teepol Al-gel
